# Headache Procedure Comfort Menu: PREPARING FOR YOUR HEADACHE PROCEDURE

We all do better with a plan! This worksheet is designed to teach you science backed strategies to help you feel more prepared and comfortable during your headache procedure visits. We will share your preferences with your doctor and/or nurse practitioner prior to your appointment.

## First things first: Be ready to SPEAK UP.

You know yourself best, and medical providers aren't mind readers. Take control and tell us what you need to be more comfortable.  $\sim$ 

Name: \_\_\_

What procedure are you having? 
Botox 
Nerve Block

Having humans we like around us makes us **feel better**. It also **CHANGES** the way we process pain, which is crazy but true.

## Who would you like to have with you?

\_\_\_\_\_ Just me!

Your trusted person can help you feel more comfortable and calm during your headache procedure by using **COMFORT POSITIONING** and **physical touch**. In fact, focusing your attention on the touch from a trusted person can **decrease pain**!

## Select a position that works for you:

Nerve block: You will be sitting up in a chair.

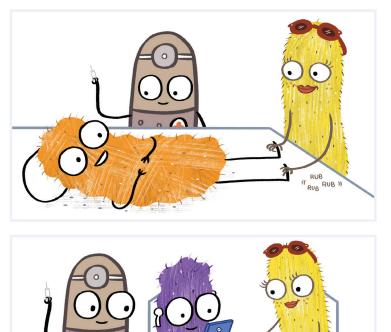

- □ Sit knee-to-knee facing me
- □ Hold my hand
- 🗌 Rub my leg
- □ Something else: \_\_\_\_\_
- $\hfill\square$  Just be in the room with me
- Botox: You will be laying down on your back for the beginning of the procedure. You will then be sitting up in a chair.

## While laying down:

- $\Box$  Stand at the foot of the bed, rub my legs
- $\Box$  Just be in the room with me

## While sitting up:

- □ Sit knee-to-knee facing me
- $\Box$  Hold my hand
- 🗌 Rub my leg
- Something else:
- $\Box$  Just be in the room with me

I here are a bunch of ways we can stop the pain of a poke be If they are available, what would you like to use?	
Numbing cream. We recommend topical lidocaine 5% cream, which can be purchased over the counter without a prescription. See instructions for applying the cream in PDF below.	
□ None of these	
You already know how good you are at blocking out the world whe on something you really like. You can use that skill to tune out pai	en you are <b>focused</b>
What do you want to focus on before and during your proce	dure?
Someone to talk to. Who?	
Something on the phone/tablet:	
∐ Music	
Something else:	
□ None of these	
<b>PRO TIP:</b> You can use this strategy in the <b>waiting room</b> too! Dis brain can help you feel more calm and ready for your	
<b>Breathing</b> is the ultimate hack of your nervous system. Simple, bu control. We recommend focusing as <b>MUCH</b> of your concentration the procedure. If you get distracted, you can shift your focus back	on as you can on your <b>breath</b> throughout
As you take those good, deep breaths, do you want	Calm App:
Someone to breathe with you? Who?	https://www.calm.com/breathe
□ To use a breathing guide app on your phone.	E194/68
